

Anatomy Word Parts

1. a = without, not
2. ab = away from
3. ad = toward
4. adipo = fat
5. af = toward
6. agglutin = clumping
7. al = pertaining to
8. alb = white
9. algia = pain
10. amyl = starch
11. anti = against
12. aqua = water
13. arch = old, first
14. arter = artery
15. ase = enzyme
16. auto = self
17. axill = armpit
18. bi = two
19. bio = life
20. bil = bile
21. blast = embryonic
22. brachi = arm
23. brady = slow
24. burs = sac
25. calci = lime
26. carcin = cancer
27. cardi = heart
28. cephalo = head
29. chondr = cartilage
30. chrom = color
31. clast = to break
32. corp = body
33. cyano = blue
34. cyte = cell
35. dent = tooth
36. derm = skin, layer
37. desic = drying
38. diplo = double
39. dis = apart, to separate
40. dia = through
41. dorsi = back
42. duct = to carry
43. ecto = outside
44. ef = away
45. emia = blood condition
46. endo = within or inside
47. entero = intestine
48. epi = above or upon
49. erythro = red
50. eu = true, normal, good
51. exo = outside, outer
52. fibro = fiber
53. fissure = split
54. fore = before, in front of
55. fusion = to join
56. galact = milk
57. gastro = stomach
58. gen = origin
59. gest = to produce
60. glyc = sugar
61. graph = writing
62. hemo = blood
63. hemi = half
64. hepato = liver
65. hist = tissue
66. holo = complete
67. homeo = sameness
68. homo = same
69. hydro = water
70. hyper = above
71. hypo = below
72. iasis = abnormal condition
73. immun = protection, safe
74. in = not
75. infra = below
76. inter = between
77. intra = within
78. iso = equal
79. itis = inflammation
80. jaund = yellow
81. karyo = nucleus
82. kinesis = movement
83. lat = side
84. leuko = white
85. lingu = tongue
86. lip = fat
87. logy = study of
88. lysis = dissolving, loosening
89. lytic = to reduce, destroy
90. macro = large
91. mamm = breast
92. meso = middle
93. meta = after or beyond
94. meter = measure
95. micro = small
96. mono = one
97. morph = shape, form
98. mort = death
99. muta = change
100. myo = muscle
101. nephros = kidney
102. neuro = nerve
103. nomen = name
104. ocul = eye
105. oid = resembling

- | | |
|--------------------------------|--------------------------------|
| 106. oma = tumor, mass | 142. sept = partition |
| 107. onc = tumor | 143. some = body |
| 108. opsy = view of | 144. squam = scale |
| 109. oral = mouth | 145. stasis = to stop |
| 110. orth = straight | 146. stom = mouth |
| 111. ose = pertaining to sugar | 147. sub = under |
| 112. osis = condition | 148. syn = together |
| 113. osteo = bone | 149. systol = contraction |
| 114. ov = egg | 150. tachy = fast |
| 115. para = beside | 151. tars = ankle |
| 116. path = disease | 152. tele = distant |
| 117. peri = around | 153. tetra = four |
| 118. phag = eat | 154. thorac = chest |
| 119. phleb = vein | 155. thromb = clot |
| 120. phore = to bear | 156. tom = to cut |
| 121. physio = function | 157. tomy = process of cutting |
| 122. pin = to drink | 158. tox = poison |
| 123. pnea = breathing | 159. trans = across, through |
| 124. pneumo = lung | 160. trophy = development |
| 125. pod = foot | 161. umbilic = naval |
| 126. poly = many | 162. uni = one |
| 127. por = opening | 163. ur = urine |
| 128. post = after, behind | 164. vas = vessel |
| 129. pre = before, in front of | 165. ventro = belly side |
| 130. pseudo = false | 166. vertebr = backbone |
| 131. pulmon = lungs | 167. viscer = internal organs |
| 132. puls = beat | 168. vit = life |
| 133. re = again | 169. xanth = yellow |
| 134. ren = kidney | 170. xiph = sword shaped |
| 135. reticul = network | 171. zoos = life |
| 136. retro = behind | |
| 137. rhin = nose | |
| 138. sacchar = sugar | |
| 139. sarco = flesh | |
| 140. sem = seed | |
| 141. seps = infection | |
